Federal Communications Commission

445 12th street SW,

Washington D.C. 20554

DOCKET FILE COPY ORIGINAL

We want you to know that we use the conference calling for meetings, sermons, singing, and other ways. We will be very inconvenienced if this ruling passes to take away conference calling. Especially it will hurt our elderly, as shut-ins they can hear our messages and singing to bring them joy. Please reconsider acting on WC Docket No. 18-155. Thank you.

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families. Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

I am a widow, 86 years old for 6 years. I have no radio or TV and live alone. I have this conference line for about 10 years. I listen to church services, weddings, funeral services, songs, also my children live in other states, (some) so we have family time on the phone (10 children) I use this line mostly after 6 o'clock in eve while I put puzzles together, then give the glued puzzles to children, grands 71 and 104 great grands. So please don't let them stop this line.

Dear Ones at Federal Communications Commission,
I live alone. I enjoy listening to Church services sometimes. If I can't go to funerals, I can listen and feel like I'm there, on the phone. I would really miss it. Also sometimes I like to listen on the news line and sometimes to singing groups. I would appreciate how it was.

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses. Sincerely,

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.
